SHERWIN-WILLIAMS
Coil Coatings

***Meets Energy Star reflectivity standards.** These colors have a lower roof surface temperature by up to 100°F, decreasing the amount of heat transferred into a building's interior, saving money and energy by reducing the amount of air conditioning needed to keep a building comfortable. Check EnergyStar.gov for available tax credits.

Colors shown are representative only and limited by printing and viewing conditions. For exact color representation, ask your rep for samples. Colors and components featuring colors are subject to change without notice. Custom steel panel colors available upon request. Must meet minimum square feet requirement.

COMPARE PAINT SYSTEMS

PAINT	<p>Better</p> <p>Sherwin-Williams WeatherXL™ Silicone Modified Polyester (SMP) Best value, combining reliable durability at a lower price</p>	<p>Best</p> <p>Sherwin-Williams Fluoropon® Polyvinylidene Fluoride (PVDF) More fade-resistant and is recommended for dark color roofs</p>

COLOR INSPIRATION

Roof color: Quaker Gray

Roof color: Antique Brown

Roof color: Black

U.S. Patent No. 9,127,451 B1 | Canadian Patent No. 2,901,202

Colors shown are representative only and are limited by printing and viewing conditions. Ask your rep for painted metal samples. Colors and components are subject to change without notice. Custom colors must meet minimum square feet requirement. Oil-canning (perceived waviness) is inherent in the flat areas of steel panels and is not a cause for rejection.
