LESTERBUILDINGS.COM

\*Meets Energy Star reflectivity standards. These colors have a lower roof surface temperature by up to 100°F, decreasing the amount of heat transferred into a building's interior, saving money and energy by reducing the amount of air conditioning needed to keep a building comfortable. Check EnergyStar.gov for available tax credits.

Colors shown are representative only and limited by printing and viewing conditions. For exact color representation, ask your Lester rep for samples. Colors and components featuring colors are subject to change without notice. Custom steel panel colors available upon request. Must meet minimum square feet requirement.

## Limitless Color Options

Lester Buildings offers the most color combination options in the industry – for a design as unique as you are. As shown above, you can select colors for every component of your building. Showcase your style and enhance your property's curb appeal. Most customers select a combination of two or three colors. Typically the roof color matches the trim and accessories, with a contrasting wall color. As you can see, building color combinations are nearly limitless! For inspiration, visit [LesterBuildings.com](http://LesterBuildings.com) to see thousands of building photos.
